EDUCATION

Texas A&M University, Mays Business School – College Station, Texas
MS in Management Information Systems
GPA: 3.50, May 2018
Uttarakhand Technical University – Dehradun, India
BS in Electronics Engineering
GPA: 3.80, May 2010

LEADERSHIP

Founding Member, Code Way
Texas A&M University
Nov 2016 – May 2016
Co-founded club for teaching and learning CS fundamentals and System design
Team Lead, Corporate Social Responsibility Club, TCS
Mar 2012 – Jun 2016
Imparted education to underprivileged children in a team of 5

INTERESTS

Travelling, Reading Technology Blogs

PROFESSIONAL EXPERIENCE

Texas A&M Engineering Experiment Station

Sr. Student Technician, College Station, TX February 2017 – May 2018

Implemented tools which helped consolidate student data across 12 engineering departments

- Created a Proof of Concept for integrating the university calendar system with an online door access control API
- Standardized and streamlined web development process for research projects at TEES; reduced deployment time by 20%
- Developed dashboard using MS Access Online; helps department leaders manage and report on all student records

Tata Consultancy Services

Information Technology Analyst Lead, Pune, India January 2011 – June 2016

Designed and developed multiple web and desktop-based solution for fortune 500 clients

- Created modern and media-rich marketing campaigns for major brands and clients such as Samsung and Microsoft
- Utilized scrum and rapid development methodologies to deliver project quickly
- Helped generate \$300,000 in company revenues by crafting multiple Request for Proposal (RFP) responses
- Lead development team to create a B2B website for an international client; increased sales by 12.5%
- Designed and developed a critical cost estimation application for MS Azure; led to direct sales for the client
- Crafted an application to automate log auditing activity for the infrastructure team; decreased processing time by 40%

ACADEMIC PROJECTS

Doctoral Candidate Study Aid – Software Engineering Course Project

- Developed Ruby on Rails web application based on Mobile first design and test-driven development. Utilizes a dynamic quiz and flash-card interface to systematically improve skills. [Project link](#)

Online Meal Ordering System – Information System Design Course Project

- Created an ASP.Net Core-based application, focusing on User Interface design principles. Provides users the ability to choose and order pre-packed meals with a simple and easy-to-use interface. Additional functionality included Bootstrap, EF Core, and Facebook authentication API. [Project link](#)

Dominick's Fine Food Retail Store – Data ware Housing Course Project

- Created data marts by performing ETL techniques on OLTP database using SSIS and loaded data in SQL server. Created MDX cubes for SSAS analysis and used SSRS reporting techniques for analysis. [Project link](#)

Career Fair Tracking System – Advanced System Analysis Course Project

- Detailed design and documentation of elements, functions, and activities involved in the career fair tracking system. Used Visio to depict various UML diagrams and the database structure of the system. [Project link](#)

CERTIFICATIONS

Microsoft Certified Solutions Associate - Microsoft

- Proficient in developing applications using ASP.Net MVC and recent front-end technologies.

Python and Angular JS Bootcamp - Udemy

- Developing full-stack web applications using HTML, CSS, JavaScript, Bootstrap, jQuery, and Python with Flask Framework
- Created a recipe book project using the recent Angular 6 JS
